

Aqua have a reputation for producing luggage of the highest quality.

Aqua Products have spent the last 18 months designing and making their new range of luggage. In conjunction with Keith Sykes, Aqua have identified the needs of the modern-day carp angler and produced a complete range of luggage to meet and exceed these requirements. The emphasis for the range is on organisation, functionality, and durability. Check out the range at your local dealer and we are convinced that you will be as impressed as we are.

Carryall

A very comprehensive and roomy carryall with a large enough capacity to carry all the items you could need whilst still being organised at the same time. It is made from strong, lightweight and durable Dupont Cordura material that is designed to last a long time. There is also a waterproof Nyllex base and wipe-clean Nyllex lining, both of which serve to protect your gear and are easy to clean. The carryall boasts 10 outer pockets and seven inner pockets, enabling you to carry lots of smaller items separately. Other features include an elasticated water holder, two outer mesh pockets, heavy-duty zips, a padded detachable shoulder strap, and neoprene handles.

RRP: £44.99

Rig Wallet

A functional and protective rig wallet that is also made from Dupont Cordura. It offers the facility to store three different length rigs with a Nyllex rig divider to protect them. Two zipped inner mesh pockets have been added in order to safely store rig accessories. For ease of use there is a two-way zip opening and a waterproof Nyllex base means that the rig wallet can be placed on the floor in wet conditions without the whole thing becoming saturated.

RRP: £14.99

Bitz Bag

A nice flexible storage system for all your riggy items, the Bitz Bag contains three detachable dividers, which allow it to be customised to your own personal requirements. It is constructed of Dupont Cordura and has a waterproof Nyllex base, wipe-clean Nyllex lining, and double zip. There is an inner mesh zipped pocket in which to keep all smaller items (such as car keys) safe.

RRP: £7.99
